

Matteo Marconi

Full-Stack Developer | React, Next.js & Node.js

Profile

Full-Stack Developer with over three years of hands-on study and project work in the React ecosystem. I build end-to-end digital products, from architecture and API design to frontend development, AI and voice integrations, real-time features and deployment.

I use AI development tools such as Claude Code, Codex and coding agents to plan, implement, test and refine features efficiently, while maintaining control over architecture, quality and reliability.

[More information ↗](#)

Stack

Frontend & Framework

Next.js React 19 TypeScript
Tailwind v4 GSAP

Backend & Database

Node.js MongoDB Express
Hono NestJS SQL Prisma

AI & Integrations

Vapi LangChain Python
Vercel AI SDK

Languages

 Italian Fluent
 English Fluent
 Spanish Conversational

Experience

Full-Stack Developer

2026 - present

Monoforge Studio, Florence, Italy

I build AI-powered products and web applications for businesses, from product definition to implementation.

My work spans voice agents, workflow automation, MCP integrations, APIs, webhooks and real-time features, plus interactive Three.js interfaces, scroll-driven animations and custom shaders.

Front End Developer - Collaboration

2026

BYLT Media, London, UK

Collaborated with a London performance marketing agency on its corporate website, prototyping a contemporary landing page with Next.js, Three.js and scroll-driven animations.

Experience in Hospitality & Fashion

2020 - 2025

Various employers, Italy

Customer-facing experience that strengthened my operational discipline, precision, attention to detail and visual sensitivity.

Education

Build Your Own Claude Code — Code With Antonio

2026

Built an AI coding CLI with streaming, tools, permissions and session management.

The Ultimate Next.js 16 Course — JavaScript Mastery

2025

Production-ready Next.js architecture, authentication, Server Actions, APIs, AI, optimization and deployment.

Full-Stack Engineer — Codecademy

2024

End-to-end path across JavaScript, React, Node.js, Express, SQL, TDD and portfolio projects.
